INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/AU2003/001440

I.	1	Basis of the repor	t			
1.	With	Vith regard to the elements of the international application:*				
		the international application as originally filed.				
	X	the description,	pages 1-11, as originally filed,			
		_	pages , filed with the demand,			
		-	pages, received on with the letter of			
	X	the claims,	pages , as originally filed,			
			pages , as amended (together with any statement) under Article 19,			
			pages, filed with the demand,			
			pages 13, received on 15 November 2004 with the letter of 15 November 2004			
	X	the drawings,	pages 1-8, as originally filed,			
			pages, filed with the demand,			
			pages, received on with the letter of			
	Ш	the sequence list	ing part of the description:			
			pages , as originally filed			
			pages , filed with the demand			
			pages, received on with the letter of			
2.	With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is:					
			a translation furnished for the purposes of international search (under Rule 23.1(b)).			
			publication of the international application (under Rule 48.3(b)).			
		the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).				
3.	With	With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:				
		contained in the	international application in written form.			
,	$\overline{\Box}$	filed together with the international application in computer readable form.				
	Ħ	furnished subsequently to this Authority in written form.				
	一	furnished subseq	uently to this Authority in computer readable form.			
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.				
		The statement th	at the information recorded in computer readable form is identical to the written sequence listing has			
4.		The amendments	s have resulted in the cancellation of:			
		the desc	cription, pages			
		the clair	ms, Nos.			
		the drav	vings, sheets/fig.			
5.		This report has b	been established as if (some of) the amendments had not been made, since they have been considered to isclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**			
*	Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).					
**	_		containing such amendments must be referred to under item 1 and annexed to this report			
	rep	oort as "originally fi	iled" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).			

International application No.

PCT/AU2003/001440

v.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations
	and explanations supporting such statement

1.	1. Statement					
	Novelty (N)	Claims 1-6	YES			
		Claims	NO			
	Inventive step (IS)	Claims 1-6	YES			
		Claims	NO			
	Industrial applicability (IA)	Claims 1-6	YES			
		Claims	NO			

2. Citations and explanations (Rule 70.7)

Claims 1-6 meet the criteria set forth in PCT Article 33(2) – (4) for novelty, inventive step and industrial applicability. The prior art published before the priority date does not disclose a support member arranged to provide suspension and being movable relative to the seat frame, and a link means connected between the support member and the seat back to prevent motion of the seat back beyond a predetermined position.

CLAIMS

5

10

35

- 1. A vehicle suspension seat arrangement, comprising a seat frame, including a seat base and a seat back, and a support member arranged to be mounted relative to a vehicle proximate the seat back, the seat frame being suspended on and movable relative to the support member and a link means connected between the support member and the seat back, and being arranged to prevent motion of the seat back beyond a predetermined position.
 - 2. A vehicle seat arrangement in accordance with claim 1, wherein the link means is a mechanical scissor link.
- 15 3. A vehicle seat arrangement in accordance with claim 1, wherein the link means includes a recliner mechanism.
- A vehicle seat arrangement in accordance with claim
 1, 2 or 3, the link means being strong enough to resist
 motion of the seat frame relative to the support member beyond a predetermined position when a load is applied to the seat back such as may be applied by a seat belt mounting of the seat back in a vehicle accident.
- 25 5. A vehicle seat arrangement in accordance with any one of the preceding claims, including an integral seat belt.
- 6. A vehicle seat arrangement in accordance with any one of the preceding claims, wherein the link means is positioned remote from a pivot connection between the seat back and the seat base.
